Features:

- Pitch neutral trim
- Output standard 6 channel signal and support 2.4G system
- Support 3D fly mode, normal fly, idle 1 fly and idle 2 fly (in the idle mode)
- D/R for aileron, elevator, rudder
- Throttle hold function
- Gyro sensitivity adjustment
- Channel neutral position setting
- Channel reverse and channel servo travel adjustment
- Six models data memory
- LED will blink with alarming when the voltage is low

CX-CT6C Transmitter Specification:

- Modulation: GFSK
- Channels: 6
- Frequency: 2.4GHz
- Working current: ≤100mA
- Weight: 654g
- Dimensions: 180*85*215mm

CX-CR6C Receiver Specification:

- Code format: PCM
- Channels: 7
- Frequency: 2.4GHz
- DC: 4.5~9.6V, ≤30mA
- Weight: 10.2g
- Dimensions: 41*27*13mm
