Features:

- Auto-detecting horizontal level
- Uses backlighting LCD monitor
- Zero and Lock function
- Automatic screen rotation
- Suitable for 200 - 800mm main blades
- Build-in energy saving function. Power shuts down after 3 mins without any movement
- Amazingly convenient
- On/Off button allows you to conserve battery life
- Hold button will stop the sensor from updating the angle that it senses. Useful for those who are working in an unstable environment
- Zero button allows you to set "0" at any given position of the sensor. This allows you to see your pitch travel at any interval

Specification:

- Detectable pitch range: -90° - 90°
- Suitable blade width: 20mm - 74mm
- Detectable pitch range: ±90°
- Measurement resolution: 0.1°
- Battery: CR2032 Lithium X 2
- Weight: 38g (Battery included)
- Dimension: 108*53.9*16mm

Package Included:

- Digital pitch gauge
-

CR2032 lithium battery X 2
